What's New

[Windows 7 - Consider 10 Reasons to Upgrade](#) - If you or anyone you know isn't aware of the merits of jumping to the new operating system, just consider these [10 reasons to upgrade to Windows 7](#). Reasons like Windows 7's better compatibility with software and devices, or the ability to access files and printers shared across multiple PCs are no-brainers when it comes to deciding whether to switch or not. [Poll - What seminar\(s\) would interest you?](#) - We created a poll back in 2007 in our DFW Business Network Meetup group. We have 19 people voted so far. [Ready to vote?](#) Poll was created on January 26, 2007. This is the result as of today, Jan. 19, 2010. As we continue to put together seminars too valuable for you to miss, I want to make sure your suggestions are heard too. Rate these topics under consideration for March and beyond. (Email if you have suggestions not on this list!)
